Head of Data Analytics @ Sanofi | Technical Program Manager |
Data Management & Engineering Expert | AI | DataOps | PMP | Agile
| Scrum | Azure Cloud Architect
Hyderabad, Telangana, India

Summary

With over 23 years of experience in data analytics and operations
management, I lead the data analytics team at Sanofi, a global
leader in healthcare and biotechnology. I am responsible for the
strategy, design, delivery, direction, optimization, and support of
enterprise data lake, data warehouse, data management, and
visualization platform services. I collaborate with business, product,
architecture, program, engineering, and infrastructure teams to
develop and deliver data solutions that meet the organization's
needs and goals.

My expertise lies in leading large, complex data initiatives, including
modern data and analytics platform implementation, modernization,
and migration projects. I oversee an organization of data engineers,
support engineers, DBAs, and full stack developers, providing
effective mentorship, coaching, and professional development
opportunities. I have obtained multiple certifications, such as Azure,
PMP, scrum master, Prince2, and Informatica, to enhance my
knowledge and skills in data analytics and IT service management.
I have also been recognized with the Pbs Award for my outstanding
performance and contribution to the data analytics team. I am
passionate about leveraging data to drive business growth and
operational efficiency, as well as delivering scalable and reliable
data solutions. I transform insights into action, and empower
stakeholders, including executive leadership, to make informed
decisions. I am motivated by the challenges and opportunities that
data analytics offers, and by the impact that data can have on the
organization's performance and outcomes. I am always eager to
learn new skills, technologies, and best practices, and to share my
knowledge and experience with others. I value teamwork, innovation,
and excellence, and I strive to create a positive and supportive work
environment for my team and colleagues.

Experience

Sanofi
Head of Data Analytics
September 2023 - Present (1 year 1 month)
Hyderabad, Telangana, India

SLB
15 years 4 months

Data Analytics Central Operations Manager
November 2022 - August 2023 (10 months)
Coimbatore, Tamil Nadu, India

As a highly analytical and results-driven professional with 20 years of experience in data analytics and operations management, I am passionate about leveraging data to drive business growth and operational efficiency.
My expertise lies in developing and executing data analytics strategies, leading cross-functional teams, and delivering actionable insights to senior stakeholders.Experienced Incident and Problem Management Professional | IT Service Management | Root Cause Analysis | Process Improvement
In my current role as Data Analytics Central Operations Manager at SLB, I oversee the day-to-day operations of our data analytics team, ensuring the timely and accurate delivery of data-driven insights to key decision-makers.
I work closely with business leaders to identify opportunities for data-driven optimization and efficiency improvements and collaborate with data scientists and analysts to develop and implement data models, dashboards, and reporting tools.
My experience includes working with a variety of data sources and tools, including Azure Cloud, Google Cloud , Azure Data Factory,SQL, Python, and Power BI, and I have a proven track record of delivering high-impact business results through data-driven decision-making.

We are use DevOps, DataOps, and Agile methodologies to improve KPIs like cycle times, consistency, and quality.
My role also involves designing and prototyping new approaches and building solutions at scale, researching and cultivating state-of-the-art data engineering methodologies, establishing documentation practices for learning and knowledge transfer, and designing and auditing reusable packages or libraries. Ultimately, you'll empower the business by creating value through the increased adoption of data, data science, and business intelligence landscape.

I am also skilled in project management, agile methodologies, and team leadership, and have a demonstrated ability to drive cross-functional collaboration and stakeholder engagement.

BI Operations Delivery Manager
December 2019 - March 2023 (3 years 4 months)
